

Queer

a weird
night is
when your
straight
friend tries
to suck your
cock

and he says
*“just touch it,
once you touch it
I don't care what
happens after that.”*

and your other friend
tells you
he let a man
suck his dick
for a pair of shoes

and you find him
looking at pictures
of bestiality

stroking his schlong
&
puking in your bathtub

but what's even
more strange
is the sober
morning
after

but I take nights like these
in stride

chalk it up
as something
to write
about.
